Documentation for testing

Summary

1. Validation
2. Responsiveness
3. Usability
4. Portability
5. Data consistency
6. Performance
7. Scalability
8. Security

Validation

- Validate html
- Validate css

Responsiveness

- Preview application on different screen sizes:
    - 1920 x 1080
    - 1600 x 900
    - 1024 x 768
    - 960 x 640
    - 480 x 320
- Make sure that key features are available on every resolution
    - loggin
    - sign up
    - form editing: add field, delete field, move
    - answers preview

Usability

- Common design solutions are used
- Every functionality is within user reach
- With or without keyboard (mobile / desktop)

Portability

- Test the application in different browsers
    - Chrome
    - Mozilla Firefox
    - Safary
    - Native browsers on mobiles

Data consistency
